Calgarians will now be able to report personally experienced or witnessed instances of street harassment in public spaces for investigation. An offence of the bylaw carries a fine of \$500. Efforts to increase public awareness are also underway, including an advertising campaign encouraging Calgarians to be aware of their own safety and the safety of others, this summer. Beginning June 1, 2022 incidents of street harassment can be reported through the Calgary Police Services non-emergency line at 403-268-1234, by calling 311 or creating a 311 service request online. Development and Planning Report for June 13, 2022

- DP2022-01328 @ 202 Erin Circle SE: application for a temporary (3-year) renewal of Home Occupation – Class 2 License for May Lash and Nails. EWCA confirmed with Planner there were no complaints made against this business since first obtaining a business license, so EWCA had no comments to make on this application.

- DP2022-02100 @ 50 Erin Meadow Close SE: application for a new garage needing an eave height relaxation of 0.35m and a parcel coverage relaxation of 6.4%. EWCA had no comments other than asking the Planner to be mindful of any potential impact on the neighbours.

- DP2021-2591 @ 1825 – 50 St SE (aka the “T&C / Town & Country” site): application for Change of Use to Special Care Facility (48 Units) – DP was approved by the City, and then appealed by both the Forest Lawn Community Association (FLCA) and the International Ave Business Revitalization Zone (IABRZ) to the SDAB (Subdivision and Development Appeal Board). Much work was done by all parties prior to the SDAB hearing on May 3/22, and in the end, an agreement was reached that was approved by the SDAB Board. That agreement is attached with this report. It’s called a “Good Neighbour Agreement” (“GNA”) and it will give the GFL community a concrete way to address social disorder issues potentially arising from this development. A committee will be struck this summer or fall, and it will work towards keeping channels of communication open as the project moves forward and any potential concerns can be dealt with in a proactive and productive way. This is a rather historic happening, as it’s quite unusual to have both parties willing to work together towards a common goal of accountability of the facility to the Greater Forest Lawn community it will be a part of, and most especially for the people it will serve.

- *Submitted by EWCA Planning Director and 12CSI’s Social Disorder Task Force member, Lori Losowy*

June 13th, 2022 Erin Woods Community Association meeting

Erin woods community garden Report

Since the garden committee completed the boxes at the end of April, 14 out of 20 boxes have been rented and planted in. We are still finalising if the gardeners have gotten community memberships and are currently working through better steps to take next year to ensure everyone gets their memberships in a timely fashion as the first year of community gardens are always a learning curve and we did expect at some point to have to make procedural changes on how renting works with gardeners. We hope next year we will sort through the rough patches in the application process and work with the Community Association to make the whole process more smooth, although things have been going well with the applications it can always be improved upon which we hope to do so next season.

Along with finishing the garden boxes we installed rain barrels which faced minor vandalism which we've been able to address for the most part, they are now chained to prevent them from being pushed over and for vandalism of boxes we are currently looking into chain-link fences, although that all has to go through the proper steps like following through with city guidelines, getting quotes, etc and making sure they all fall under the proper procedural steps. This is currently just in the planning process; nothing is concrete at this point.

We also recently had a meeting with all who could attend on addressing vandalism issues and the issue of the garden being closer to the rink than was anticipated and we will be in contact with Jonathan to see if he can share his rink plans and figure out a way to make sure that the garden does not interfere with the rink based on whatever plans he provides us and the Community association, and if the garden does interfere see if our solution of moving the leftmost boxes to the right side of the garden is a viable solution (left based on standing by shed doors looking out to the garden). However it is important to note that the boxes that might need to move depending on what Jonathan suggests cannot be done so until after **October 15th** as that is the end of the gardening season as shown on the gardener user agreement previously shared with the community association.

In the coming months we are looking at doing our next rain barrel order and also ordering a 1000 litre rain barrel for the Community Garden through our provider in Granum, with this thousand litre rain barrel we should have enough to place a order and will follow through with customers to figure out pick up dates as we did with the last order.

We are currently going through all of our receipts that are scanned into a shared folder between all committee members and printing them off to physically hand them to Caroline so she can add them to the books, and will be sending an updated finance sheet as there have been added expenses since building the garden (all transactions under \$500 as per the bylaws). All finances are accounted for and we will have them sent into the community association as soon as Shellbie finds the time to sort through the receipts and print them all in an organised fashion.

June 2022 EWCA Safety Report

Traffic Calming

- SLOWS machine was poorly received, the speed limit sign had 50KPH posted on the back of it, and the community complained about it "not working anyways" and taking up space in the road. Talking with 311 about getting the statistics collected by the SLOWS machine on driving patterns in the school zone.
- Update on the "lighting review" for the community? Anyone? lol
- Ladder style paint is on the crosswalks by Petro Canada now.
- 117 signatures on the petition for strengthened traffic calming in EW – What's the next move? How long do we leave it open? How can I get more signatures?

Hall Vandalism

- Concerns with vandalism along the back of the hall – I have a spare camera, but it costs a few bucks a month for the cloud services.
- There was a grant going around last year for \$\$ to improve lighting at community halls – If we brightened up the area, that might keep vandals out.

Other

- Overdoses in the Trailer community – Discussion about Narcan kits and the SCAN program. A new app has been put out by the AB government called "Digital Overdose Response" it's meant to combat the 70% of opiate deaths that happen while users are home alone.

- Evictions through Court of Queen's Bench cost \$750.00 and generally the courts will award the landlord \$650.00 in their judgment for these fees
- Evictions through the RTDRS cost \$550.00 and generally they will only award approximately \$100.00 to the landlord for these fees.

3. What reasons can I evict a tenant for?

- Unpaid rent
- Significant Interference
- Tenant conducting illegal Acts
- Endangering people in the property or the common area
- Causing or permitting significant damage to the property or common area
- Failing to maintain the premises in a reasonably clean condition
- Failing to vacate the premises upon the expiration of the lease agreement
- Allowing unauthorized occupants to reside in the premises

4. Can you help me collect on my judgment?

- Yes, if the tenant has employment or a bank account Foster and Company can help you collect on outstanding amounts on a judgment by filing a garnishee.

5. How long is a judgment in Alberta effective?

- Judgments are good for 10 years and will be reported to the credit bureau

- Both routes have their strengths and weaknesses, so by providing both options we can provide a more complete service to our clients. If you're unsure of which process may work better for you and your unique circumstance, please contact us so we can assist you and explain your options.

• **Bailiff Services**

REPORT NOTES

Most of the statistical data in this report is derived from the Calgary Police Service records management system (SENTRY) and compiled by the Resource and Project Team. Disorder data is derived from the Computer aided Dispatch (CAD) system.

Reporting is based on the most serious offence in the incident. Please note that offences are assigned to the month in which the offence was reported, which is not necessarily the month the offence occurred. The reported date is the first point in time at which the police were notified of the offence and reporting lag may vary due to circumstances (these are typically property crimes where the victim did not report the offence until a later date, or was unaware of the loss until a later date, or late-reported sexual assaults). Also note that “attempted” offences are included in these totals. Violent crime offences, excluding robbery, are counted by the number of victims, using the most serious offence against the victim. Robbery, and all non-violent are counted at the incident level, using the most serious offence in the incident. Of note, cases are often cleared months and sometimes years later. Consequently, clearance rates for previous years may appear to be much higher than those of the present year. Cases “cleared by charge” and those “cleared otherwise” are included in these clearance rate totals.

For a more detailed explanation of the offence counting procedure, please contact Corporate Data and Analytics, Bureau of Service and Community Support.

¹Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit. ²Robbery is counted at the incident level, rather than at the victim level in accordance with Uniform Crime Reporting counting standards. ³The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five year period.

NOTE: Disorder reported here includes only publicly generated calls. Dispatched, advised and callback calls are included.

¹Calls for service included in the "mental health concern" component of social disorder are only those calls from the public which are specifically coded as a mental health concern or mental health warrant. It is important to recognize that any call police are asked to attend may involve some element of mental health concern, even though they are not coded as such. This applies particularly to calls about suicide, missing persons or check on welfare, which are not included in this data as they are not considered social disorder. ²In June 2020 a change to event type coding resulted in the removal of Landlord/Tenant and Neighbour Dispute event subtypes. Calls to events involving these types of disputes are now coded according to the nature of the dispute rather than the relationship between the parties. Some may be represented in other event subtypes within Disorder such as Disturbance, Unwanted Guest, or Property Damage, while others may be coded as Keep the Peace or Assault and as a result would no longer be included in Disorder. ³The majority of Property Damage calls result in *Criminal Code* reports, which are counted under 'Other Property Crimes'. ⁴The range of average is calculated as 1 standard deviation above and 1 below the calculated average for the previous five-year period.

¹Due to the dynamic nature of homicide investigations these numbers may have been updated manually to reflect the current homicide count. Due to manual updating, it's possible that 1 or more homicides may be reflected in the assault category. Homicide counts are provided by the homicide unit.

²Robbery is counted at the incident level, rather than at the victim level in accordance with Uniform Crime Reporting counting standards.

³Phase One of Bill 21 took effect Dec 1, 2020 and has resulted in a significant reduction in impaired offences under the *Criminal Code* as most first time impaired drivers will be subject to only an IRS:FAIL (the specific administrative penalty under the *Traffic Safety Act* for criminal level impaired driving offences), unless the incident results in death or serious bodily harm or other significant aggravating factors in which case criminal charges should also be pursued.

⁴This represents the number of persons reported missing, not the number of outstanding missing persons. Roughly 99% of persons reported missing to Calgary Police Service are located.
